INTRODUCTION

Aquafarer is a premier global OEM/ODM manufacturer and brand specializing in inflatable watercraft and marine safety equipment. Backed by the Qingdao Vatrada Group (established in 2000), Aquafarer was founded in 2012 as a dedicated manufacturing division. Today, we proudly serve B2B clients, private labels, and bulk wholesale partners in more than 50 countries worldwide.

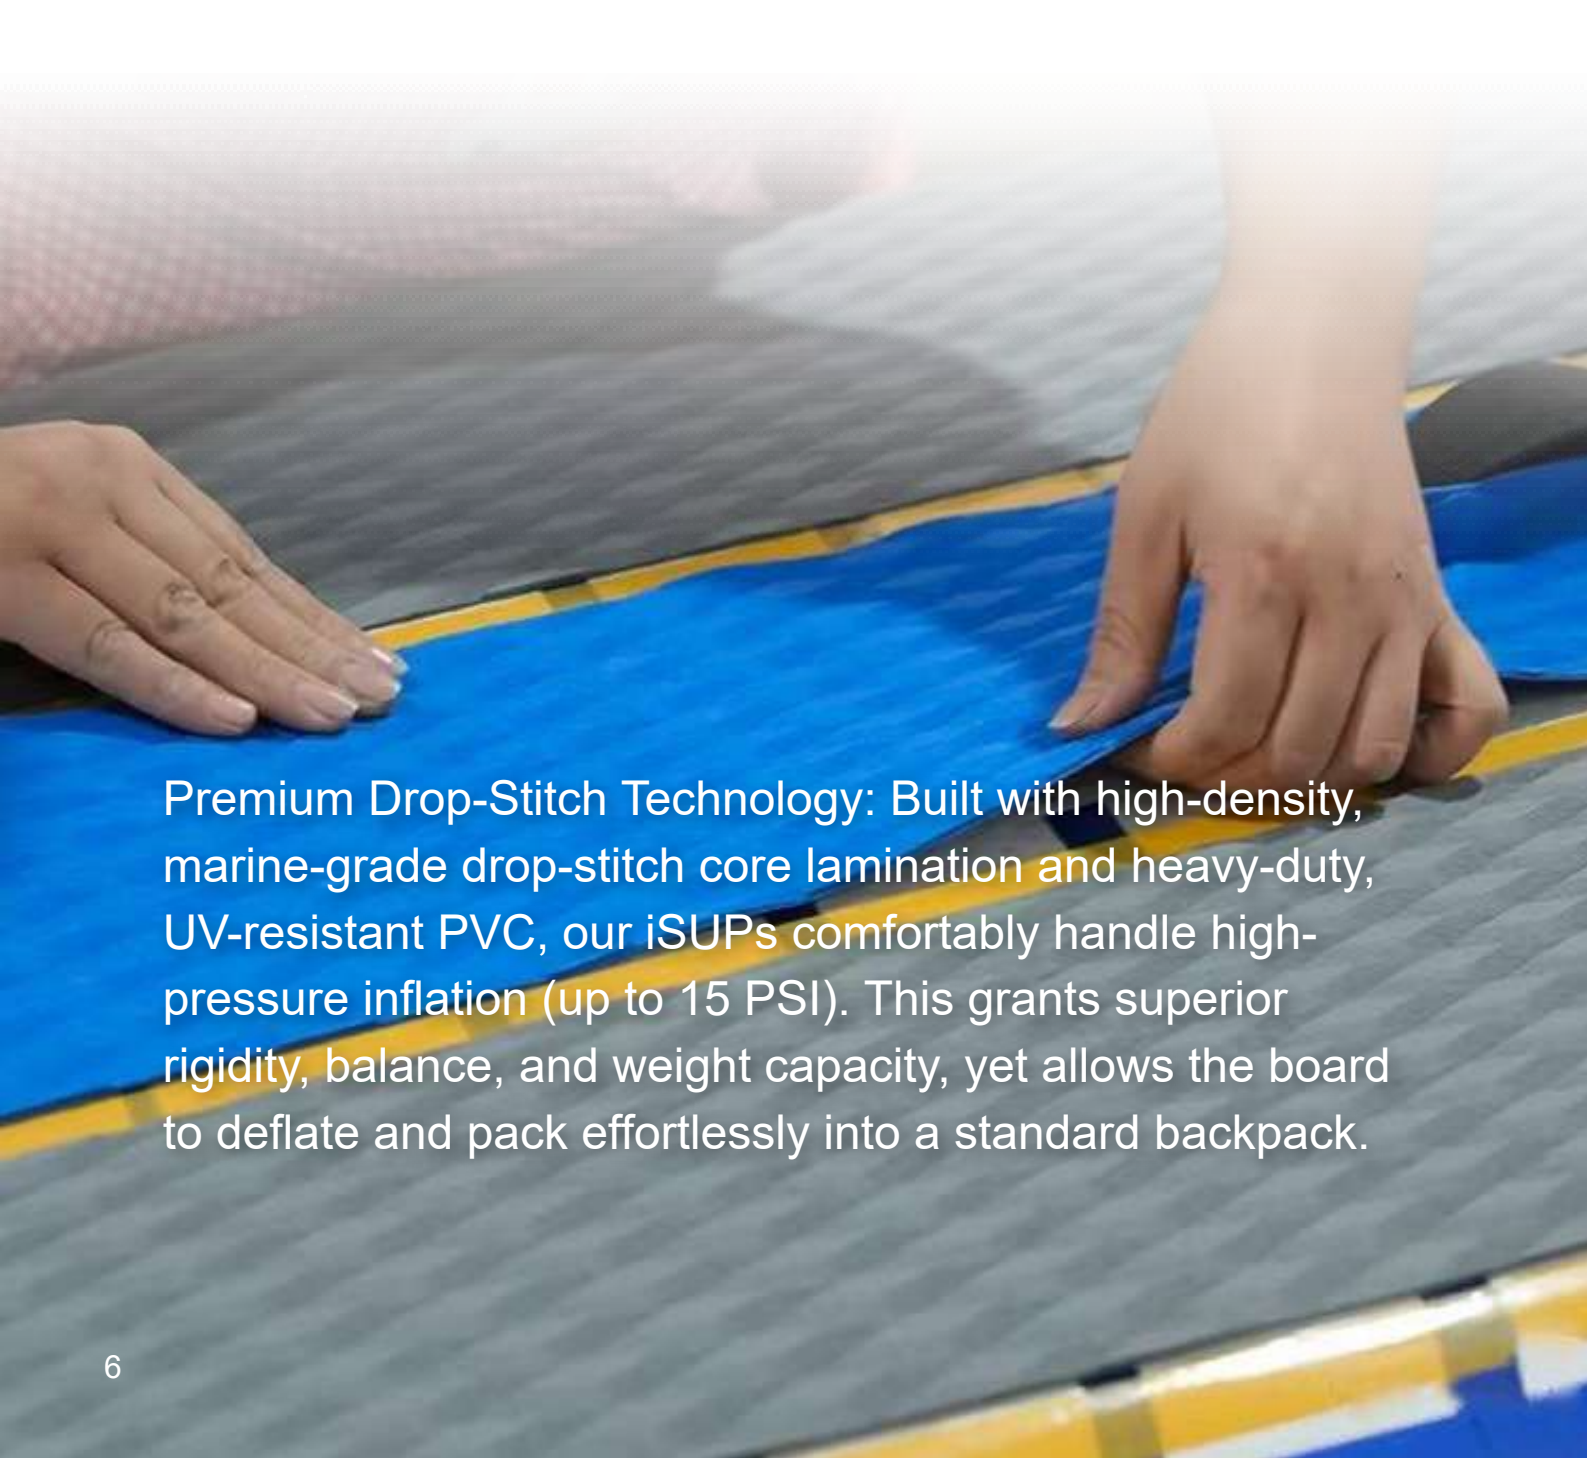

Operating from our 12,000 m² production facility in Qingdao, China, Aquafarer houses over 200 skilled workers and an advanced R&D center. With an annual capacity of over 15,000 units, we manage every step of production vertically—from raw material inspection, advanced PVC high-frequency welding, and digital printing, to rigorous quality control, ensuring full traceability and zero-defect delivery.

Welcome to Aquafarer

At Aquafarer, we craft high-performance, durable, and versatile inflatable stand-up paddleboards (iSUPs) tailored for every water adventure. From casual weekend gliders to professional-grade specialized platforms, our comprehensive range of series is designed with precision engineering, ensuring ultimate stability, tracking, and agility.

Premium Drop-Stitch Technology: Built with high-density, marine-grade drop-stitch core lamination and heavy-duty, UV-resistant PVC, our iSUPs comfortably handle high-pressure inflation (up to 15 PSI). This grants superior rigidity, balance, and weight capacity, yet allows the board to deflate and pack effortlessly into a standard backpack.

Your Ultimate Inflatable SUP Fleet

Certified Safety & Reliability: Every paddleboard we build is CE-certified and manufactured in strict compliance with ISO standards. We don't believe in "marketing inflation"—our dimensions, weight, and load ratings are honest, and every single hull undergoes meticulous pressure testing before shipment.

Comprehensive B2B Customization (Custom Lab): With our vertically integrated facility, we offer seamless private label, custom mold development, and OEM/ODM services.

Partners can pick from our proven templates, upload their brand assets, and receive a photorealistic AI-generated preview within 48 hours, followed by agile bulk production.

Which Series Matches Your Next Water Adventure?

Series	Mainstream Length	Mainstream Width	Mainstream Thickness
All-Around	10'0" - 11'0"(305 - 335 cm) Classic: 10'6" (320cm)	31" - 34"(79 - 86 cm) Most Common: 32" (81cm)	4.75" or 6"(12 cm / 15 cm)
Touring	11'6" - 14'0"(350 - 427 cm) Classic: 12'6" (381cm)	28" - 32"(71 - 81 cm) Advanced: 30" (76cm)	6"(15 cm)
Race	12'6" or 14'0" (381 cm or 427 cm) ICF/ISA Events: 14'0"	21" - 26"(53 - 66 cm) Extremely narrow	6"(15 cm)
Yoga / Fitness	10'0" - 10'8"(305 - 325 cm)	33" - 35"(84 - 89 cm) Extra wide and stable	5" or 6"(12.5 cm / 15 cm)
Surf iSUP	7'6" - 9'6"(229 - 290 cm)	29" - 32"(74 - 81 cm)	4" - 4.75"(10 cm / 12 cm)
White Water	9'6" - 10'2"(290 - 310 cm)	34" - 36"(86 - 91 cm) Ultra-wide	6"(15 cm)

WAVE IT EASY

Series	Mainstream Length	Mainstream Width	Mainstream Thickness
Youth / Kids	7'0" - 9'0"(213 - 274 cm) Classic: 8'0" (244cm)	28" - 30"(71 - 76 cm) Most Common: 28" (71cm)	4" or 4.75" (10 cm / 12 cm) Rarely 6" (15cm)
Mega Giant / XL (8 - 10+ Persons)	18'0" - 18'6" (548 - 564 cm)	60" - 65" (152 - 165 cm)	8"(20 cm)
MINI SUP	4'0" - 4'6" (122 cm - 137 cm)	22" - 25" (56 cm -63 cm)	4"(10 cm)
Inflatable Fishing SUP	10'10" / 11'0" (330 ~ 335 cm)	38" ~ 40" (96 ~ 101 cm)	6"(15 cm)
Multi-purpose Utility SUP / Lure Skiff SUP	11'0" -12'6" (335cm - 381cm)	40" - 48" (101cm - 122cm)	6" or8" (15cm or 20cm)

The Aquafarer ALL-AROUND Series SUP Board is engineered for ultimate versatility, effortless portability, and exceptional performance. Featuring a lightweight fusion laminate and an ultra-compact folding design, this board is built for seamless travel without sacrificing durability. Whether you are navigating calm lakes or tackling moving river waters, the ALL-AROUND Series provides the perfect balance of comfort, adaptability, and high-performance engineering for paddlers looking to elevate their experience.

Application Scenarios

All-Weather & Variable Water Exploration: Perfect for adapting to different aquatic environments—from serene flatwater to choppy coastal conditions—by adjusting the removable triple-fin configuration.

Whitewater & River Touring: Fully capable of handling moving river water and whitewater environments (with the mandatory use of safety gear such as a quick-release leash, helmet, and an inherently buoyant life jacket).

AQUAFARER · Tropical Breeze Island Escape

Seamlessly Integrating A Complete Island Vacation Canvas Into Water Sports Equipment

Top-To-Bottom Visual Synergy: The Nose (Upper Section) Features A Delicate, Micro-Landscape Illustration Depicting A Dreamlike Scene Of Sunshine, Coconut Groves, And A Beach Beauty. From The Midsection To The Tail (Lower Section), Abstract EVA Color-Blocking Extends The Movement Of The Waves, The Stretch Of The Beach, And The Lushness Of The Palms. Standing On The Board, Paddlers Feel As If They Have Stepped Directly Into This Vacation Painting.

Reconciliation Of Function And Aesthetics: Great Industrial Design Never Compromises With Manufacturing Constraints; Instead, It Leverages Craftsmanship To Achieve Aesthetics. Through A Perfect Division Of Labor Between Digital/Screen-Printed Graphics And Die-Cut EVA Material Patchwork, This Design Preserves The Premium Feel Of The Illustration While Highlighting The Geometric, Linear Beauty Of The Material Itself.

From Scenery to Immersion

AQUAFARER · Jungle Mandala

Tropics Vitality And Sacred Geometry In Convergence

The Design Utilizes A Highly Eye-Catching Color Palette Of Tiffany Blue And Coral Orange. The Nose Section Seamlessly Weaves Iconic Tropical Rainforest Elements—Such As Hibiscus Flowers, Palm Fronds, And Hovering Hummingbirds—With A Highly Meticulous Mandala Geometric Totem. These Symmetrical Geometric Lines Act Like An Energy Field Under The Scorching Sun, Symbolizing The Adventurous Spirit Of Outdoor Sports And A Continuous Stream Of Natural Vitality.

	Length	Width	Thickness
All-Around	10'0" - 11'0" (305 - 335 cm) Classic: 10'6" (320cm)	31" - 34" (79 - 86 cm) Most Common: 32" (81cm)	4.75" or 6" (12 cm / 15 cm)

The Overall Layout Concentrates The Intricate Jungle Illustrations At The Nose And Tail, Leaving The Central EVA Standing Zone In A Clean, Refreshing Mint Green To Achieve A Clear Visual Hierarchy. This Allows Paddlers To Experience Both The Wild, Uninhibited Rhythm Of A Tropical Island And A Sense Of Balanced Inner Order As They Charge Through The Waves.

AQUAFARER · Ocean Voyager Series

The Sea Turtle Is Nature's Ultimate Ocean Wanderer, Navigating Thousands Of Miles With Effortless Grace.

"Ocean Voyager" Series Is A Profound Tribute To The Vibrant Yet Tranquil World Beneath The Waves. It Bridges Sophisticated Modern Vector Aesthetics With Practical, High-End Manufacturing Limitations. Delivering A Clean. Impactful Visual Storytelling.

Top Deck Layout: The Nose Area Features A Highly Detailed, Geometric Sea Turtle Illustration Surrounded By Organic Kelp And Coral Motifs, Rendered Through High-Precision UV Digital Printing. Transitioning Downward, The Traction Pad Embraces A Bold, Minimalistic Approach. A Solid, Contrast-Colored White Turtle Silhouette And Crisp Coral Shapes Are Embedded Into The Deep Teal Deck Pad, Creating A Striking Focal Point That Celebrates The Pulse Of Ocean Life Directly Beneath The Rider's Feet.

Bottom & Rails: The Hull Prioritizes An Elegant, Clean-Cut Look With An Expansive White Base That Reduces Weight And Heat Absorption, Highlighted By Playful Swimming Fish Details And The Flowing, Wave-Infused AquaFarer Branding In Coral Orange And Turquoise. The Rails Are Simplified Into Solid Blocks Of Deep Teal With A Single, Perfectly Centered Logo, Ensuring A Sleek Profile Free From Stretching Artifacts During Factory Inflation.

Harmonizing with Marine Life, Navigating with Steady Grace

The Aquafarer TOURING Series SUP Board is crafted for paddlers who demand exceptional stability, straight-line tracking, and efficiency over long distances. Designed to deliver a smooth and steady ride, this board minimizes flex and maximizes control, making it the ultimate companion for flat-water exploration and extended coastal cruising. With its focus on rigidity and customizable performance, the TOURING Series ensures you can explore further with absolute confidence.

Application Scenarios

Long-Distance Touring & Cruising: Perfect for paddlers looking to cover long distances smoothly, thanks to the rigid rail batten system that prevents sagging and maintains a steady, efficient glide.

Flat-Water Exploration: Ideal for serene lakes, calm bays, and slow-moving rivers where straight tracking and premium stability are paramount.

Custom Performance Paddling: Suited for experienced paddlers who want the flexibility to tune their board's performance for specific water conditions or racing.

AQUAFARER · Dolphin Wave

Grounded In Classic Marine Aesthetics, The Design Masterfully Interweaves Deep Ocean Tones (Medieval Blue) With Tranquil Hues (Serenity) To Create A Highly Layered Visual Effect Of Surging Waves. At The Nose, A Pod Of Dolphins Leaping Gracefully From The Water Amidst Crashing White Foam Infuses The Board With Dynamic Vitality And A Powerful Sense Of Forward Momentum.

	Length	Width	Thickness
Touring	11'6" - 14'0" (350 - 427 cm) Classic: 12'6" (381cm)	28" - 32" (71 - 81 cm) Advanced: 30" (76cm)	6"(15 cm)

Returning to the pure freedom of the ocean

The Mid-To-Rear Section Of The Deck Features Modern Geometric Color-Blocking, Which Effortlessly Transitions Into Elegant, Minimalist Hand-Drawn Wave Linework At The Tail. By Seamlessly Merging Intricate Nature Illustrations With Contemporary Geometric Framing, This Design Ensures That The Moment A Paddler Steps Onto The Board, They Feel The Thrill Of Freely Riding The Waves Like A Dolphin—Experiencing A Perfect, Harmonious Connection With The Deep Blue Sea.

The Aquafarer RACE Series SUP Board is the ultimate elite-tier inflatable designed specifically for competitive racers, speed enthusiasts, and experienced paddlers who refuse to compromise. Engineered to deliver a true hardboard-like feel, this series bridges the gap between inflatable convenience and podium-topping performance. With an uncompromising focus on maximum velocity, agility, and streamlined efficiency, the RACE Series is the only board you need to dominate the racecourse and crush your personal bests.

Application Scenarios

Competitive SUP Racing & Sprints: Perfectly tailored for official race circuits, technical sprint races, and time trials where every second counts and maximum board rigidity is vital.

High-Speed Fitness Training: An ideal training partner for experienced paddlers looking for a high-intensity workout, offering the speed and tracking required for long, aggressive cardio sessions.

Challenging & Tight Waterways: Excel in navigating narrow channels, tight pockets, and technical courses where both rapid acceleration and sharp maneuverability are required to stay ahead of the pack.

Conquering the Waves

"Leviathan Wake" Series Is Inspired By The Ancient Harmony And Legendary Struggle Between Deep-Sea Giants And Tempestuous Ocean Waves. This Piece Seamlessly Bridges Rich Tribal Textures With Sophisticated Modern Vector Illustration To Capture The Ocean At Its Most Dynamic And Powerful.

Top Deck Artwork: The Nose Serves As A Breathtaking Canvas, Showcasing A Magnificent Blue Whale Adorned With Intricate Geometric And Tribal Patterns. It Breaches Dramatically, Charging Toward The Sky Through Tumbling, Cascading Waves, While A Pair Of Seagulls Adds A Touch Of Organic Life And Motion. Transitioning Downward, The Traction Pad (EVA Pad) Utilizes Highly Abstract Black-And-White Swell Lines, Echoing The Movement Of The Cresting Waves From Complex Detail To Minimalist Flow—Giving The Paddler The Sensation Of Standing Directly Atop The Rolling Ocean.

Bottom & Rails: The Hull Embraces A Clean, Elegant Minimalism With An Expansive White Base That Maximizes Visual Contrast And Minimizes Heat Absorption. The Focus Is Entirely Directed Toward The Sweeping, Wave-Infused AquaFarer Gradient Logo In Deep Blue And Vibrant Turquoise, Symbolizing Speed And Grace. The Rails Subtly Extend This Visual Story, Blen

Unlocking the Infinite Mysteries of the Deep

AQUAFARER · RHEO Series

It Seamlessly Merges The Hardcore Performance Of Extreme Racing With A Vibrant, Modern Color Aesthetic, Breaking Away From The Dull, Monotonous Industrial Feel Of Traditional Racing Paddleboards.

Hull Design: The Ultimate Evolution Of Fluid Dynamics

The Core Of This Board Shape Lies In "Conquering Drag With Narrowness, Mastering Speed With Length."

Wave-Piercing Displacement Nose: The Razor-Sharp Nose Is Engineered To Slice Through Water With Minimal Drag, Providing Exceptional Penetration In Head Chop Or Crosswinds While Reducing Deceleration.

Golden Racing Proportion The Extreme 14-Foot Length Delivers Unparalleled Straight-Line Tracking And Momentum, Maximizing The Glide Distance With Every Single Stroke. The Professional 26-Inch Narrow Width Significantly Reduces Wetted Surface Friction, Enabling Paddlers To Achieve Higher Cadence And More Efficient Power Transfer.

Straight-Line Tracking Fin System: Featuring A 2+1 Fin Setup, It Maintains Excellent Straight-Line Tracking At High Speeds While Ensuring Lateral Stability During Fast, Sweeping Turns On A Narrow Deck.

The Bone of Speed

Visual Aesthetics: The Vibrant Vitality Of Water Flow

The Design Discards The Cold, Clinical Feel Typical Of Racing Gear In Favor Of "Fluid Grace."

Dynamic Streamline Gradients:

The Dynamic Stripes On The Deck And Bottom Simulate The Physical Trajectory Of "Water Parting And Converging Along The Rails" During High-Speed Gliding.

The Sweeping, Elegant Curves On Both Sides Visually Elongate The Board, Creating A Sense Of Motion And Speed Even When Standing Still.

Details & Craftsmanship: Balancing Pro-Racing With Practicality

Split EVA Deck Pad: The Dark, Slip-Resistant Pad Is Highly Dirt-Resistant While Providing Excellent Tactile Feedback And Grip For Standing On A Narrow Platform. The Traction Grooving Runs Parallel To The Water Flow, Showcasing Exceptional Attention To Detail.

Lightweight Front Bungee System: Even As A Race-Focused Board, It Retains A Streamlined Cargo System To Meet The Needs Of Athletes Carrying Essential Hydration And Gear During Long-Distance Training Runs.

The Soul of Flow

Engineered with premium materials, high-end features, and superior construction, this series delivers unmatched value, stability, and performance. Specially optimized to provide a serene yet highly capable platform, it seamlessly bridges the gap between a peaceful floating yoga studio and a high-performance paddle board, allowing you to transition effortlessly from mindful meditation to active paddling.

Clutter-Free Yoga Surface: Thoughtfully designed with a completely flat, unobstructed deck space, featuring a unique removable center handle wrap to ensure a perfectly smooth surface for poses, transitions, and stretching.

Premium Comfort & Grip: Equipped with a Reptile Skin Traction Pad that provides exceptional comfort and a non-slip grip, paired with a signature WF Kick Pad & Arch Support to enhance stability during both standing poses and advanced water maneuvers.

Lightweight Fused Laminate Construction: Built using high-end fusion laminate with additional reinforcement layers in key areas. This achieves the ideal balance of lightweight durability, making the board incredibly easy to carry—even for extended paddling sessions—without sacrificing structural rigidity.

AQUAFARER · Flowing Lotus

It Seamlessly Blends Traditional Eastern Brushwork—Featuring Lotuses, Agile Koi Fish, And Dragonflies—With Modern Outdoor Water Sports. The Vibrant Gradient At The Front Of The Board Mimics The Reflection Of The Early Morning Sun Dancing On The Water's Surface. The Intertwining Shades Of Pink, Orange, Green, And Blue Capture The Dynamic Rhythm Of Flowing Water, While The Clean, Generous Teal Block In The Middle And Rear Sections Creates A Perfect Visual Balance Between Movement And Stillness.

	Length	Width	Thickness
Yoga	10'0" - 10'8"(305 - 325 cm)	33" - 35"(84 - 89 cm)Extra wide and stable	5" or 6"(12.5 cm / 15 cm)

and all things co-exist in harmony

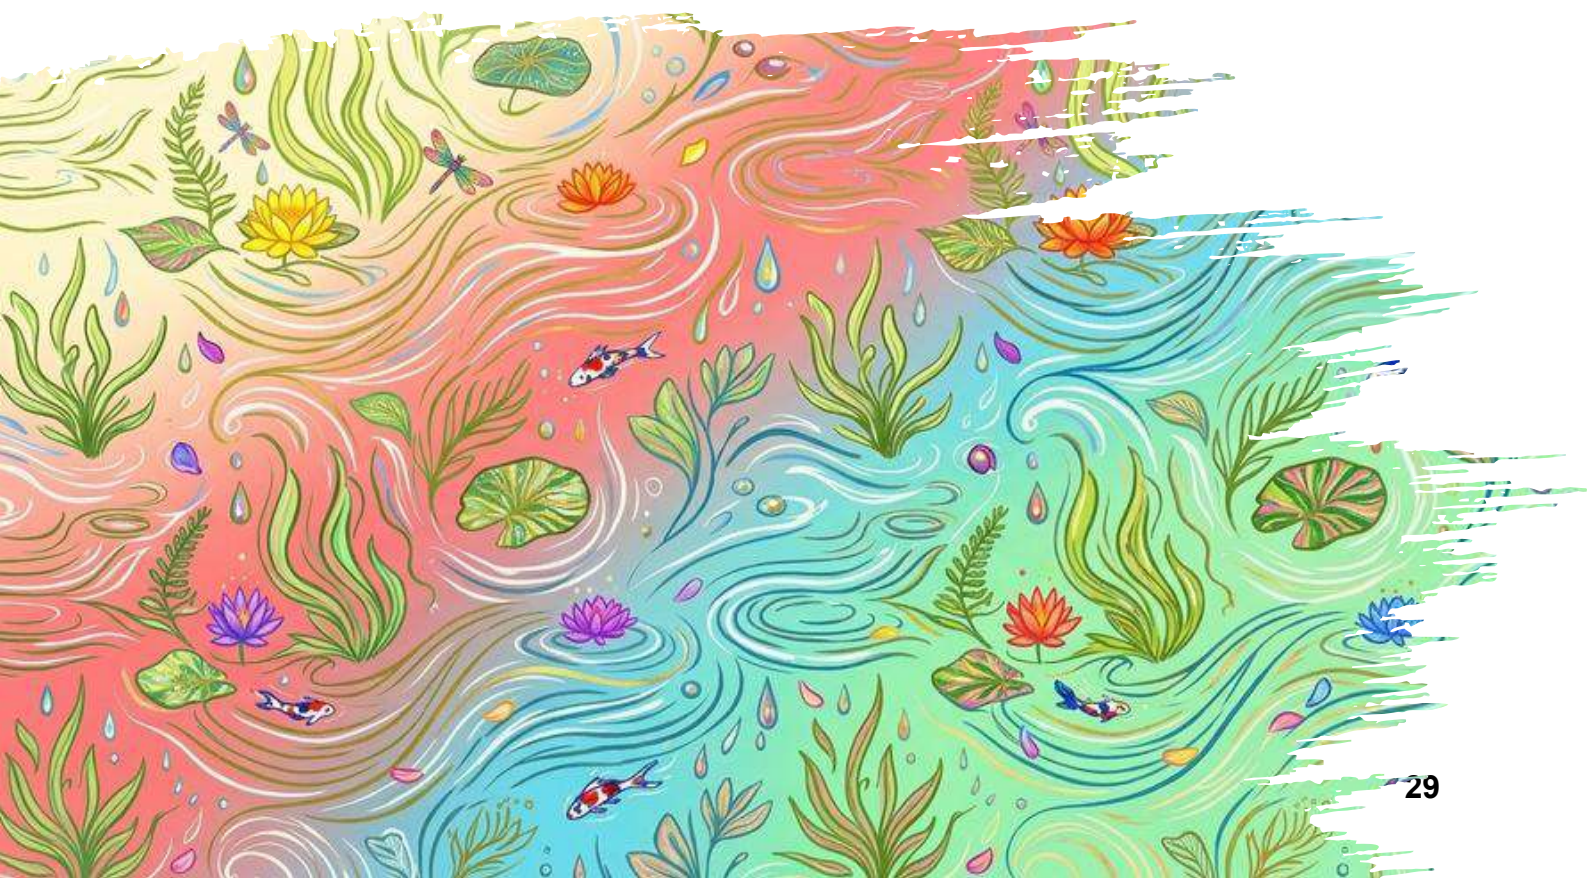

Still waters run deep

Triple Fin Setup: Features A Three-Fin Configuration With An Optimized Toe-In Angle, Delivering Exceptional Tracking, Stability, And Balance Across Various Water Conditions.

Double-Action Inflation Pump: Includes A High-Pressure/High-Volume Pump That Inflates On Both The Downstroke And Upstroke, Cutting The Time And Effort Required To Reach Your Optimal Pressure In Half.

Tactile Feedback Tail Pad: Features A Contoured Tail Pad That Provides Precise Tactile Feedback For The Rear Foot, Allowing For Confident, Advanced Maneuvers Like Bottom Turns, Tail Drops, And Submerged Tail Pivot Turns.

Heavy-Duty Storage & Utility: Outfitted With High-Grade Stainless Steel D-Rings At The Nose, Tail, And Forward Deck For Leashes Or Towing, Alongside A Rugged Bungee System To Keep Your Yoga Gear, Water Bottles, And Cargo Perfectly Secure And Balanced.

The Aquafarer SURF Series SUP Board is specifically engineered to elevate your wave-riding experience without sacrificing the convenience of an inflatable. This high-performance board combines the speed and agility needed to carve waves with the versatility required for everyday paddling. Tailored for lighter riders (up to 155 lbs), the SURF Series bridges the gap between dedicated surfing performance and effortless, travel-ready portability, making it the ultimate solution for ocean adventurers.

Application Scenarios

Dedicated Ocean Surfing & Wave Riding: Optimized for catching and riding waves, utilizing its aggressive nose rocker, thin rails, and narrow tail to carve faces and navigate surf zones.

Lightweight All-Around Paddling: An excellent recreational cruiser on calm waters for smaller or lighter paddlers (up to 155 lbs) who want a highly maneuverable and easily manageable board.

Adventure & Airport Travel: The perfect choice for surf trips around the globe, thanks to its high-stiffness inflatable construction and the ultimate wheeled travel backpack that simplifies packing and transportation.

AQUAFARER · Horizon Lines Series

The Collision Of Dynamic Geometry And Natural Rhythm

Sense Of Speed And Power: The Tilted Color Blocks, Arranged In A "V" Shape Or Parallel Diagonals, Mimic The Dynamic Trajectory Of Water Flowing Past The Sides Of The Board. This Creates A Powerful Sense Of Motion And Momentum, Even When The Board Is Completely Stationary.

Modern Minimalist Aesthetic: The Clean, Geometric Lines Cut Through Unnecessary Clutter. By Eliminating Redundant Decorations, The Design Perfectly Aligns With The "Gorpcore" And Minimalist Outdoor Trends Favored By Contemporary Adventurers.

A Truly Great Design Must Be Highly Functional As Well As Visually Stunning:

Forward-Looking Visual Focus: The Geometric Lines On The Deck Taper Toward The Nose. Combined With The Bungee Cargo Area, This Naturally Guides The Paddler's Gaze Forward, Enhancing Focus And A Sense Of Direction On Open Water.

High Contrast For Safety: Whether It Is The Bold Color-Blocking Or The Clear Contrast Of The Traction Pad, These Design Choices Enhance The Board's Visibility On The Water, Ensuring Safety Without Sacrificing Style.

	Length	Width	Thickness
Surf iSUP	7'6" - 9'6" (229 - 290 cm)	29" - 32"(74 - 81 cm)	4" - 4.75" (10 cm / 12 cm)

Harmony Between Earth Tones And Nature

Core Design

Low-Volume Profile (4" Thickness): Built Significantly Thinner Than Standard Adult Inflatable Boards At Just Four Inches Thick. This Lower Volume Brings The Rider Closer To The Water, Dramatically Enhancing Agility, Responsiveness, And Control On Wave Faces.

Rail Stiffening System (RSS): Features A Cutting-Edge RSS Layout That Increases Overall Rigidity, Perfectly Compensating For The Inherent Flex Of A Thinner Board To Deliver A Rock-Solid, Hardboard-Like Feel During High-Speed Maneuvers.

Narrow Surf Tail: Crafted With A Streamlined, Narrow Tail Profile Designed To Bite Into The Water, Providing Superior Control And Allowing For Precise, Aggressive Carving Turns.

AQUAFARER · Cheetah Surge

The Striking "Collision Of Elements"—Bridging The Predatory, Land-Bound Agility Of A Cheetah With The Fluid, Primal Energy Of The Ocean. It Elevates A Piece Of Outdoor Sports Equipment Into A Walking Canvas Of Lifestyle Vector Art, Seamlessly Balancing High-End Aesthetics With Practical, Flawless Manufacturing.

The Top Deck: Untamed Wilderness & Premium Texture

Artistic Cheetah Illustration: The Nose Of The Board Features An Intricate, Geometrically Textured Cheetah Emerging From Fluid, Colorful Brushstrokes. It Represents Raw, Untamed Nature, Bordered By Bold Ocean Flora And A Solid White Silhouette For A Sharp, Modern Contrast.

Multi-Color Die-Cut Traction Pad: The Traction Pad Discards Cheap, Traditional Printing That Fades Or Blurs Over Time. Instead, It Utilizes Multi-Color EVA Block Piecing, Where Individually Colored Foam Sheets Are Die-Cut And Seamlessly Assembled.

Conquering the Wild with Fluid Strength

Both Are Divided By A Bold, Dynamic "Flame/Wave" Boundary Between Teal And Deep Navy Blue, Ensuring The Graphics Remain Permanent, Scratch-Resistant, And Perfectly Flush Underfoot.

Micro-Engineering: Where Beauty Meets Performance

Flawless Execution: The Wild Aesthetic Does Not Sacrifice Structural Integrity. Every Detail Is Micro-Engineered To Prevent Early Delamination And Manual Error On The Factory Floor—Featuring Mask-Ready Bonding Zones For The D-Rings And Handles, And Blunted EVA Seams For Maximum Adhesion.

High-Stability Hull: Underneath Its Trendy Exterior, The Board Functions As A Premium All-Around/ SURF Model. It Is Engineered With A Widened Midsection (Typically 32") And A Gently Upturned Nose (Rocker) To Effortlessly Glide Through Chops, Providing Maximum Buoyancy, Balance, And Lateral Stability For Beginners, Yogis, And Flatwater Explorers Alike.

The Aquafarer WHITEWATER Series SUP Board is a heavy-duty, high-performance inflatable crafted specifically for riders who crave absolute stability without sacrificing a sporty, responsive ride. Engineered with an intuitive, self-correcting design, this board is ideal for larger riders navigating unpredictable currents and rapid waters. Whether you are charging down turbulent river canyons or looking for punchy playtime in the surf, the WHITEWATER Series delivers the ultimate combination of rugged durability, agile tracking, and safety-focused engineering.

Application Scenarios

Whitewater & River Rapids Navigation: Purpose-built for charging down technical river lines, breaking through holes, and handling turbulent whitewater (always wear a quick-release leash, helmet, and buoyant life jacket in these conditions).

River Surfing & Playtime: Perfect for park-and-play river waves or ocean surf zones, utilizing the full rocker and sharp swallowtail to surf seamlessly and carve aggressively.

Heavy-Duty Gear Expeditions: An excellent choice for larger riders or multi-day river adventurers who need a highly stable, self-correcting platform capable of carrying gear through unpredictable water conditions.

AQUAFARER · Ocean Pulse

The Design Is Inspired By The Intertwining Of Micro And Macro Marine Ecosystems. The Designer Has Abstractly Transformed The Boundless Ocean Waves Into Vibrant, Topographic-Style Contours. Layers Of Soothing Tiffany Blue And Pure White Blend Seamlessly, Replicating The Crystal-Clear, Jelly-Like Visual Of Sunlight Piercing Through Shallow Coastal Waters.

Coexist with the Ocean

Front Design: High-Saturation Shallow-Sea Turquoise Wraps Around Ripples That Seem To Rise And Fall Like Musical Notes. The Traction Pad Is Adorned With Free-Swimming Fish Schools, Agile Water Droplets, And Swaying Seagrass, As If Embedding An Entire Tropical Reef Ecosystem Right Beneath The Paddler's Feet For A Truly Immersive, Ocean-Connected Experience.

Back Design: Embracing An Elegant Minimalist Layout With Extensive White Space, It Features The Bold And Artistic Aquafarer Typography. The Wave-Shaped Brand Logo Breaks Across The Surface Like A Surging Crest, Perfectly Balancing Tranquility With A Dynamic Sense Of Speed And Forward Momentum.

Core Design

ICore Construction (Double Layer Drop Stitch): Built With An Ultra-Tough Double-Layer Drop-Stitch Matrix To Withstand The Punishing Impacts Of Rocks, Logs, And Rough Riverbeds While Maintaining Optimal Rigidity.

Full Rocker & Swallowtail Profile: Features A Pronounced Full Rocker That Allows The Board To Ride Over Punchy Waves And Holes Without Nose-Diving. This Is Paired With A Sharp Outline Swallowtail That Ensures Crisp, Seamless Surfing And Aggressive Carving From The Tail.

	Length	Width	Thickness
White Water	9'6" - 10'2" (290 - 310 cm)	34" - 36"(86 - 91 cm) Ultra-wide	6"(15 cm)

Ride the Rhythmic Waves

The Aquafarer Youth / Kids Series redefines young enthusiast paddle boarding by packing high-end features, top-notch construction, and premium materials into a perfectly scaled design. Offering the best value and performance on the market for younger paddlers, this series delivers a stable, confidence-inspiring platform that grows with their skills. It is lightweight, incredibly durable, and effortlessly portable, making it the ultimate choice for the next generation of water adventurers.

Application Scenarios

Youth Skill Building & Performance Progression: The perfect platform for developing and junior paddlers looking to step up from basic paddling to advanced maneuvers, surfing, and sharp pivot turns.

Family Travel & Recreational Paddling: An excellent, easy-to-carry companion for family beach days, lake vacations, and weekend flat-water cruising.

Multi-Activity Water Play: Highly versatile for everything from recreational distance paddling to youth SUP yoga, thanks to the convertible, smooth-deck design and highly stable tracking.

AQUAFARER · Medusa Glow

"Medusa Glow" Series Is Inspired By The Enchanting, Tranquil, And Microscopic Ecosystems Of Tropical Shallow Waters. By Rendering Lively Marine Organisms In A Refreshing, Hand-Drawn Vector Illustration Style, It Creates A "Healing" Aquatic Sanctuary Away From The Hustle And Bustle Of City Life.

Top Deck Layout: The Nose Canvas Showcases Vibrant, Dreamy Jellyfish, Five-Pointed Sea Stars, And Well-Structured Colorful Coral Reefs. Set Against A Translucent Mint Green Background, It Resembles A Flowing Underwater Tropical Rainforest, Offering The Paddler A Profoundly Immersive Connection With The Ocean.

The Traction Pad (EVA Pad) Utilizes A Minimalist Design Approach, Embedding Solid White Sea Star And Seashell Die-Cut Blocks Into A Deep Teal Deck, Allowing The Rider's Feet To Step Directly Onto The Iconic Symbols Of The Beach And Ocean.

	Length	Width	Thickness
Youth / Kids	7'0" - 9'0"(213 - 274 cm) Classic: 8'0" (244cm)	28" - 30"(71 - 76 cm) Most Common: 28" (71cm)	4" or 4.75" (10 cm / 12 cm) Rarely 6" (15cm)

Deep-Sea Dreamscape

Bottom & Rails: The Hull Features An Expansive Layout Of Clean, Crisp Mint Green, Delivering The Ultimate Cooling Sensation Of A Summer Ocean Breeze. The Flowing, Wave-Infused AquaFarer Brand Identity Is Expertly Screen-Printed At The Center, With Its Brilliant Coral Orange Wave Lines Jumping Out Against The Cool-Toned Background.

The Rail Bands Are Simplified To Maintain A Clean, Modern Industrial Aesthetic, Featuring A Single, Perfectly Centered Logo To Eliminate Stretching Artifacts During Factory Assembly.

Core Design

AquaFarer Fused Laminate Construction: Engineered Using A Lightweight Fusion Laminate With Additional Reinforcement Layers In Key Areas. This Achieving The Ideal Balance Of Featherlight Handling For Younger Riders And Rugged Durability To Withstand Rough Use.

Ergonomic Grip & Arch Support: Features A Non-Slip Reptile Skin Traction Pad For Premium Comfort, Paired With The Signature AquaFarer Kick Pad & Arch Support To Give Smaller Feet The Enhanced Hold And Confidence Needed For Advanced Maneuvers.

Highly Packable Compact Design: Specifically Engineered To Fold Down Into An Ultra-Compact Size That Rivals Purpose-Built Travel Boards, Making It Incredibly Easy For Kids Or Parents To Transport And Store.

Dancing in Harmony with Agile Marine Life

The Aquafarer MINI SUP Series breaks the mold of traditional paddle boards by delivering an ultra-versatile, multi-purpose hybrid design. Transitioning seamlessly between a compact paddle board, an inflatable surfboard, and a high-performance bodyboard, this series is engineered for maximum utility. Don't let its compact size fool you—while it serves as the perfect introductory board for younger riders, its robust buoyancy and playful shape make it an equally exciting wave-riding tool for adults and a fun platform for four-legged companions.

Application Scenarios

Youth Paddling & Surf Progression: An excellent, manageable starter board for kids and teens learning to balance, paddle, or catch their very first waves in the surf zone.

Adult Bodyboarding & Shore Surf: Ideal for adults looking to hit the beach, lie prone, and charge shorebreaks or small surf as a high-buoyancy bodyboard or recreational swim float.

Pet-Friendly Floating Play: The perfect "Dog Float Pad" for pet owners who want to take their dogs out on lakes, pools, or calm bays for a safe, balanced day on the water together.

AQUAFARER · SplashKin Series

Core Design

Multi-Purpose Hybrid Geometry: Specially Shaped With A Short, Wide, And Highly Stable Profile That Allows It To Adapt Fluidly To Multiple Watersports Disciplines, Including Stand-Up Paddling, Prone Bodyboarding, And Wave Riding.

Optimized Volume-To-Length Ratio: Engineered To Offer Maximum Buoyancy And Stability Within A Highly Compact Footprint, Ensuring It Can Support A Wide Range Of Rider Types, From Children To Fully-Grown Adults.

Ultra-Portable Footprint: Its Miniature Sizing Means It Deflates And Rolls Up Into An Incredibly Small Package, Making It The Most Travel-Friendly, Easy-To-Store, And Quick-To-Inflate Board In The Entire Aquafarer Lineup.

Key Features

Dual-Age Versatility: Functioning Perfectly As A Dedicated Kids' SUP/Surfboard, It Provides A Non-Intimidating, Easily Maneuverable Platform For Children While Remaining Rigid Enough To Be Used As An Adult Bodyboard Or Rescue Kickboard.

Durable, Pet-Friendly Deck: Constructed With Heavy-Duty, Puncture-Resistant Materials That Can Easily Withstand The Claws And Paws Of Dogs, Making It An Ideal Floating Deck For Pets.

	Length	Width	Thickness
MINI SUP	4'0" - 4'6" (122 cm - 137 cm)	22" - 25" (56 cm -63 cm)	4"(10 cm)

Dynamic Wave Adaptation: Features A Responsive Rocker Line And Rail Profile That Allow It To Catch Small Ocean Waves Or River Breaks Effortlessly, Whether You Are Standing Up Or Riding Prone (Bodyboarding).

Recommended Applications

Corporate Team Building / Team Bonding Events

Commercial Water Sports Rentals & Club Excursions

Large Family Gatherings & Multi-Kid Lake Parties

Whitewater Team Rafting (Heavy-duty double-layer PVC builds)

AQUAFARER · Ocean Voyager Series

Core Design & Manufacturing Parameters

Hull Shape (Tail Design): Usually Incorporates A Swallow Tail Or A Wide Squared-Off Tail To Provide Maximum Lateral Stability When Multiple Paddlers Shift Their Weight Simultaneously.

Thickness Logic (8 Inches / 20 Cm): Unlike Standard Individual Boards (Which Are 4.75" Or 6"), Giant SUPs Must Be 8 Inches Thick. This Provides The Extreme Volume Required To Float Multiple Adults And Ensures The Board Remains Rigid Without Bending Under Heavy, Concentrated Loads.

Operating Pressure: 11 - 15 PSI. Due To The Massive Internal Air Volume, Dual-Valves Are Often Installed To Allow Two People To Inflate The Board At The Same Time.

Board Tier / Capacity	Length	Width	Thickness	Max Payload	Volume
Medium Giant(4 - 6 Persons)	15'0" - 16'0" (457 - 488 cm)	50" - 55" (127 - 140 cm)	8"(20 cm)	~450 kg (992 lbs)	900L - 1100L
Large Giant (Standard) (6 - 8 Persons)	16'4" - 17'0" (500 - 518 cm)	59" - 60" (150 - 152 cm)	8"(20 cm)	~650 kg (1433 lbs)	1200L - 1400L
Mega Giant / XL (8 - 10+ Persons)	18'0" - 18'6" (548 - 564 cm)	60" - 65" (152 - 165 cm)	8"(20 cm)	~850+ kg (1874 lbs)	1500L - 1700L+

Key Functional Hardware & Features

Multi-Handle Configuration: Equipped With 8 To 12 Heavy-Duty Neoprene Grab Handles Running Down Both Side Rails, Plus Handles At The Nose And Tail. Vital For Team Carrying, Launching, And Re-Boarding From Deep Water.

Fin Setup (Multi-Fin System): Typically Utilizes A 4+1 System Or A Tri-Fin System (3 Large Click-In/US Box Fins). Multiple Fins Are Required To Track Such A Wide Board In A Straight Line And Reduce The Immense Lateral Drift Caused By Current Or Wind.

Double Cargo Bungee Systems: Usually Features 4-Point Or 6-Point Bungee Nets At Both The Nose And Tail To Secure Multiple Dry Bags, Coolers, Or Safety Gear.

Multiple D-Rings & Safety Leash Attachments: Heavy-Duty Stainless Steel D-Rings Are Placed At The Tail Corners So Multiple Riders Can Wear Safety Leashes Without Tangling, And At The Nose For Boat Towing Or Anchoring.

AQUAFARER · Fishing Series

Pronounced "Double-Sided Air Chamber" Design (Catamaran / Outrigger Style)

Thickened Side Tubes: The Board Features Highly Robust Inflatable Blue Chambers On Both Sides, Which Deliver Exceptional Secondary Stability.

Purpose: Standard Paddle Boards Are Prone To Wobbling When Standing To Fish, Reeling In A Catch, Or Navigating Choppy Waters. This Catamaran-Like Structure Dramatically Enhances Lateral Stability, Prevents Capsizing, And Allows Anglers To Cast Their Lines With Confidence And A Solid Footing.

	Length	Width	Thickness
Fishing SUP	10'10" / 11'0" (330 ~ 335 cm)	38" ~ 40" (96 ~ 101 cm)	6"(15 cm)

The Board Features A Distinct Pointed Nose And Tail With A Subtle Rocker. This Design Maintains Maximum Deck Width While Ensuring Excellent Wave-Piercing Capability And Tracking—Closely Mimicking A Kayak's Hull Shape To Balance Stability With Paddling Efficiency.

Abundant Fishing-Specific Accessories & Mounts

Rod Holder Mounts: Located On The Left And Right Sides Just Ahead Of The Traction Pad Are Two Professional-Grade, Black Plastic Mounts Designed To Secure Fishing Rod Holders, Fish Finders, Or Other Essential Gear.

Fish Ruler: A 10-To-80 Cm Fish Ruler Is Printed Right Down The Center Of The Traction Pad. This Is A Signature Feature Of Dedicated Fishing Boards, Allowing Anglers To Measure Their Catch Directly On The Deck.

Multi-Functional D-Rings: Multiple Metal D-Rings Are Distributed Across The Middle And Rear Of The Deck. These Are Perfect Not Only For Securing Cargo But Also For Strapping Down A Fishing Cooler, A Folding Camp Seat, Or A Landing Net.

AQUAFARER · Lure Skiff SUP

Key Feature: Central Cutout Compartment (Fish-Viewing / Underwater Inspection Window)

The Most Prominent Feature Of This Board Is The Massive Square Cutout In The Center. This Design Is Extremely Rare In Conventional SUPs And Primarily Serves The Following Purposes:

Fish-Viewing / Underwater Window: It Is Typically Paired With A Transparent, High-Definition Tempered Glass Or Acrylic Window, Allowing Lure Anglers To Directly Observe The Water Flow, Underwater Structures, And Fish Movement Beneath Them.

Lure Fishing & Angling Convenience: Some Anglers Use This Cutout To Retrofit A Livewell (Live Bait Tank) Or Store Landing Nets. It Also Allows For Easier Line Retrieval While Fishing In A Seated Position, Preventing The Fishing Line From Rubbing Against The Edges Of The Board.

Professional Accessories & Expandability

Abundant Handles & D-Rings: The Sides Of The Board Are Equipped With Multiple Heavy-Duty Grab Handles, Making It Easy To Carry Over Rough Terrain Or Grab Onto While In The Water.

Multi-Fin System: The Bottom Features A 3-Fin Configuration (Tri-Fin Setup), Which Significantly Improves Straight-Line Tracking And Wind Resistance For Such A Wide Board.

Front Bungee System & Accessory Mounts: The Nose Features Drop-Stitch D-Rings And A Bungee Storage Cargo Net. Additionally, The Black EVA Deck Pad Is Pre-Equipped With Multiple Action Mounts For Various Lure Fishing Accessories, Such As Rod Holders And Fish Finder Mounts.

Technical Specifications Breakdown

The Board Is Marked With Dimensions Of 350 - 120 - 15 Cm And A Load Capacity Of 800 Catties (Approx. 400 Kg / 880 Lbs):

Ultra-Wide Board Profile (120 Cm / Approx. 47"):

While Standard All-Around Boards Typically Measure 80–84 Cm In Width, This Board Is Widened To 120 Cm. Although This Sacrifices Speed, It Delivers Unmatched Lateral Stability. Even When Casting, Setting The Hook, Fighting Large Fish, Or Installing Heavy-Duty Fishing Seats, The Board Remains Incredibly Stable And Virtually Impossible To Flip.

Stubby/Wide Outline (350 Cm / Approx. 11.5'):

This Length Combined With The 120 Cm Width Gives The Board A Robust, Pontoon-Like Appearance. The Swallowtail Stern With A Dual-Thruster Setup (And Even Pre-Configured Mounting Space For Power Propulsion Systems) Ensures Excellent Maneuverability And Responsiveness Despite Its Extreme Width.

Massive Weight Capacity (800 Catties / 400 Kg):

Built With Heavy-Duty, Reinforced Drop-Stitch Construction, It Has More Than Enough Buoyancy To Handle All Your Lure Fishing Gear (Coolers, Rod Holders, Lithium Batteries, And Even An External Electric Trolling Motor) Alongside The Angler's Own Weight.

	Length	Width	Thickness
Multi-purpose Utility SUP	11'0" -12'6" (335cm - 381cm)	40" - 48" (101cm - 122cm)	6" or 8" (15cm or 20cm)

AQUAFARER · Inflatable Rescue Paddle Board

Welcome To The Next Generation Of Professional Water Safety. Our High-Visibility Inflatable Rescue SUP Is Engineered Specifically For Lifeguards, First Responders, And Professional Rescue Teams Operating In Challenging Environments. This Is Not Just A Paddleboard; It's A Rapidly-Deployable, Ultra-Stable, And Durable Floating Platform Designed To Save Lives.

High-Visibility Aesthetics: The Board Utilizes A Striking Dual-Color Scheme (Signal Yellow And International Red) To Ensure Maximum Visibility To Both The Rescuer, The Victim, And Supporting Teams On Shore, Even In Low-Light Or Turbulent Water Conditions.

Medical Identification: A Large, Prominent White Cross Symbol On Both The Top And Bottom Surfaces Immediately Identifies The Board As A Medical And Rescue Asset.

Robust Handle System: The Board Is Lined With Multiple, Strategically-Placed Heavy-Duty Grab Handles. This Allows:
The Victim To Easily Grasp The Board From The Water At Any Point.

Multiple Rescuers To Transport The Board Or Stabilize A Victim During Transport.

Key Features

Advanced Stability: An Optimized Shape And Thickness Ensure An Ultra-Stable Platform, Allowing A Rescuer To Safely Board A Victim From The Side Without Capsizing.

Integrated Cargo System: A Bungee-Cord Storage Area At The Nose Allows The Rescuer To Secure Essential Medical Supplies, Life Vests, Or Tow Lines.

Reinforced Sidewalls: Multi-Layer Rail Construction Enhances Durability And Protects The Board From Impacts During Close-Quarter Rescues Near Rocks Or Other Vessels.

Textured Traction Pad: The Core Area Of The Board Features A Premium, Non-Slip EVA Deck Pad, Providing The Rescuer With Excellent Footing In All Conditions.

Towing Points: Integrated Heavy-Duty D-Rings Provide Secure Attachment Points For Towing The Board Or Anchoring It In Place.

Multiple Grab Loops: Beyond The Primary Handles, Smaller Grab Loops Line The Rails For Added Grasping Options.

AQUAFARER · Inflatable Dock Platform

Deck & Frame: Constructed Using Drop Stitch Material Combined With 0.9mm Or 1.2mm Thick PVC Coated Fabric. After High-Pressure Inflation (Typically Up To 10–15 PSI), It Achieves Extremely High Rigidity, Ensuring That It Will Not Sink Or Bend When Stood Upon. Its Flatness Is Comparable To That Of A Solid Wood Deck.

Wood Grain & Surface Anti-Slip: The Surface Of The Load-Bearing Deck Pads Is Covered With EVA Anti-Slip Mats (Commonly Featuring Wood Grain Or Deck Textures). This Provides Both Anti-Slip Functionality And Enhanced Comfort Underfoot And Aesthetic Appeal.

Mesh Leisure Area: The Central Submerged Resting Area Is Made Of High-Strength Nylon/Polyester Mesh Fabric. This Allows Water To Flow Through, Making It Convenient For People To Soak In The Water To Cool Down.

Edge Joining: The Edges And Seams Mostly Utilize Heat-Melting/Fusion Welded Technology Or Multi-Layer Thickened PVC Edge Wrapping To Ensure High Airtightness, Wear Resistance, And Durability.

Lakefront Relaxation: Use It As A Portable Patio On A Calm Lake, Extending Your Leisure Space Over The Water.

Boat Extension (Party Dock): Attach It To Your Boat To Create A Convenient, Low-Profile Boarding Platform, Or Use It As A Separate Social Space For Swimming And Lounging.

Cool-Down Zone: The Central Mesh Lounge Is Perfect For Relaxing Partially Submerged On Hot Days.

Paddleboard Base: A Stable Platform To Launch And Retrieve Paddleboards And Kayaks, Or For Gear Storage.

Yoga/Fitness Platform: A Unique, Floating Mat For Water-Based Yoga, Pilates, Or Balance Exercises.

Pet-Friendly Ramp: A Stable Area For Pets To Easily Climb Out Of The Water After Swimming.

Why Choose Aquafarer?

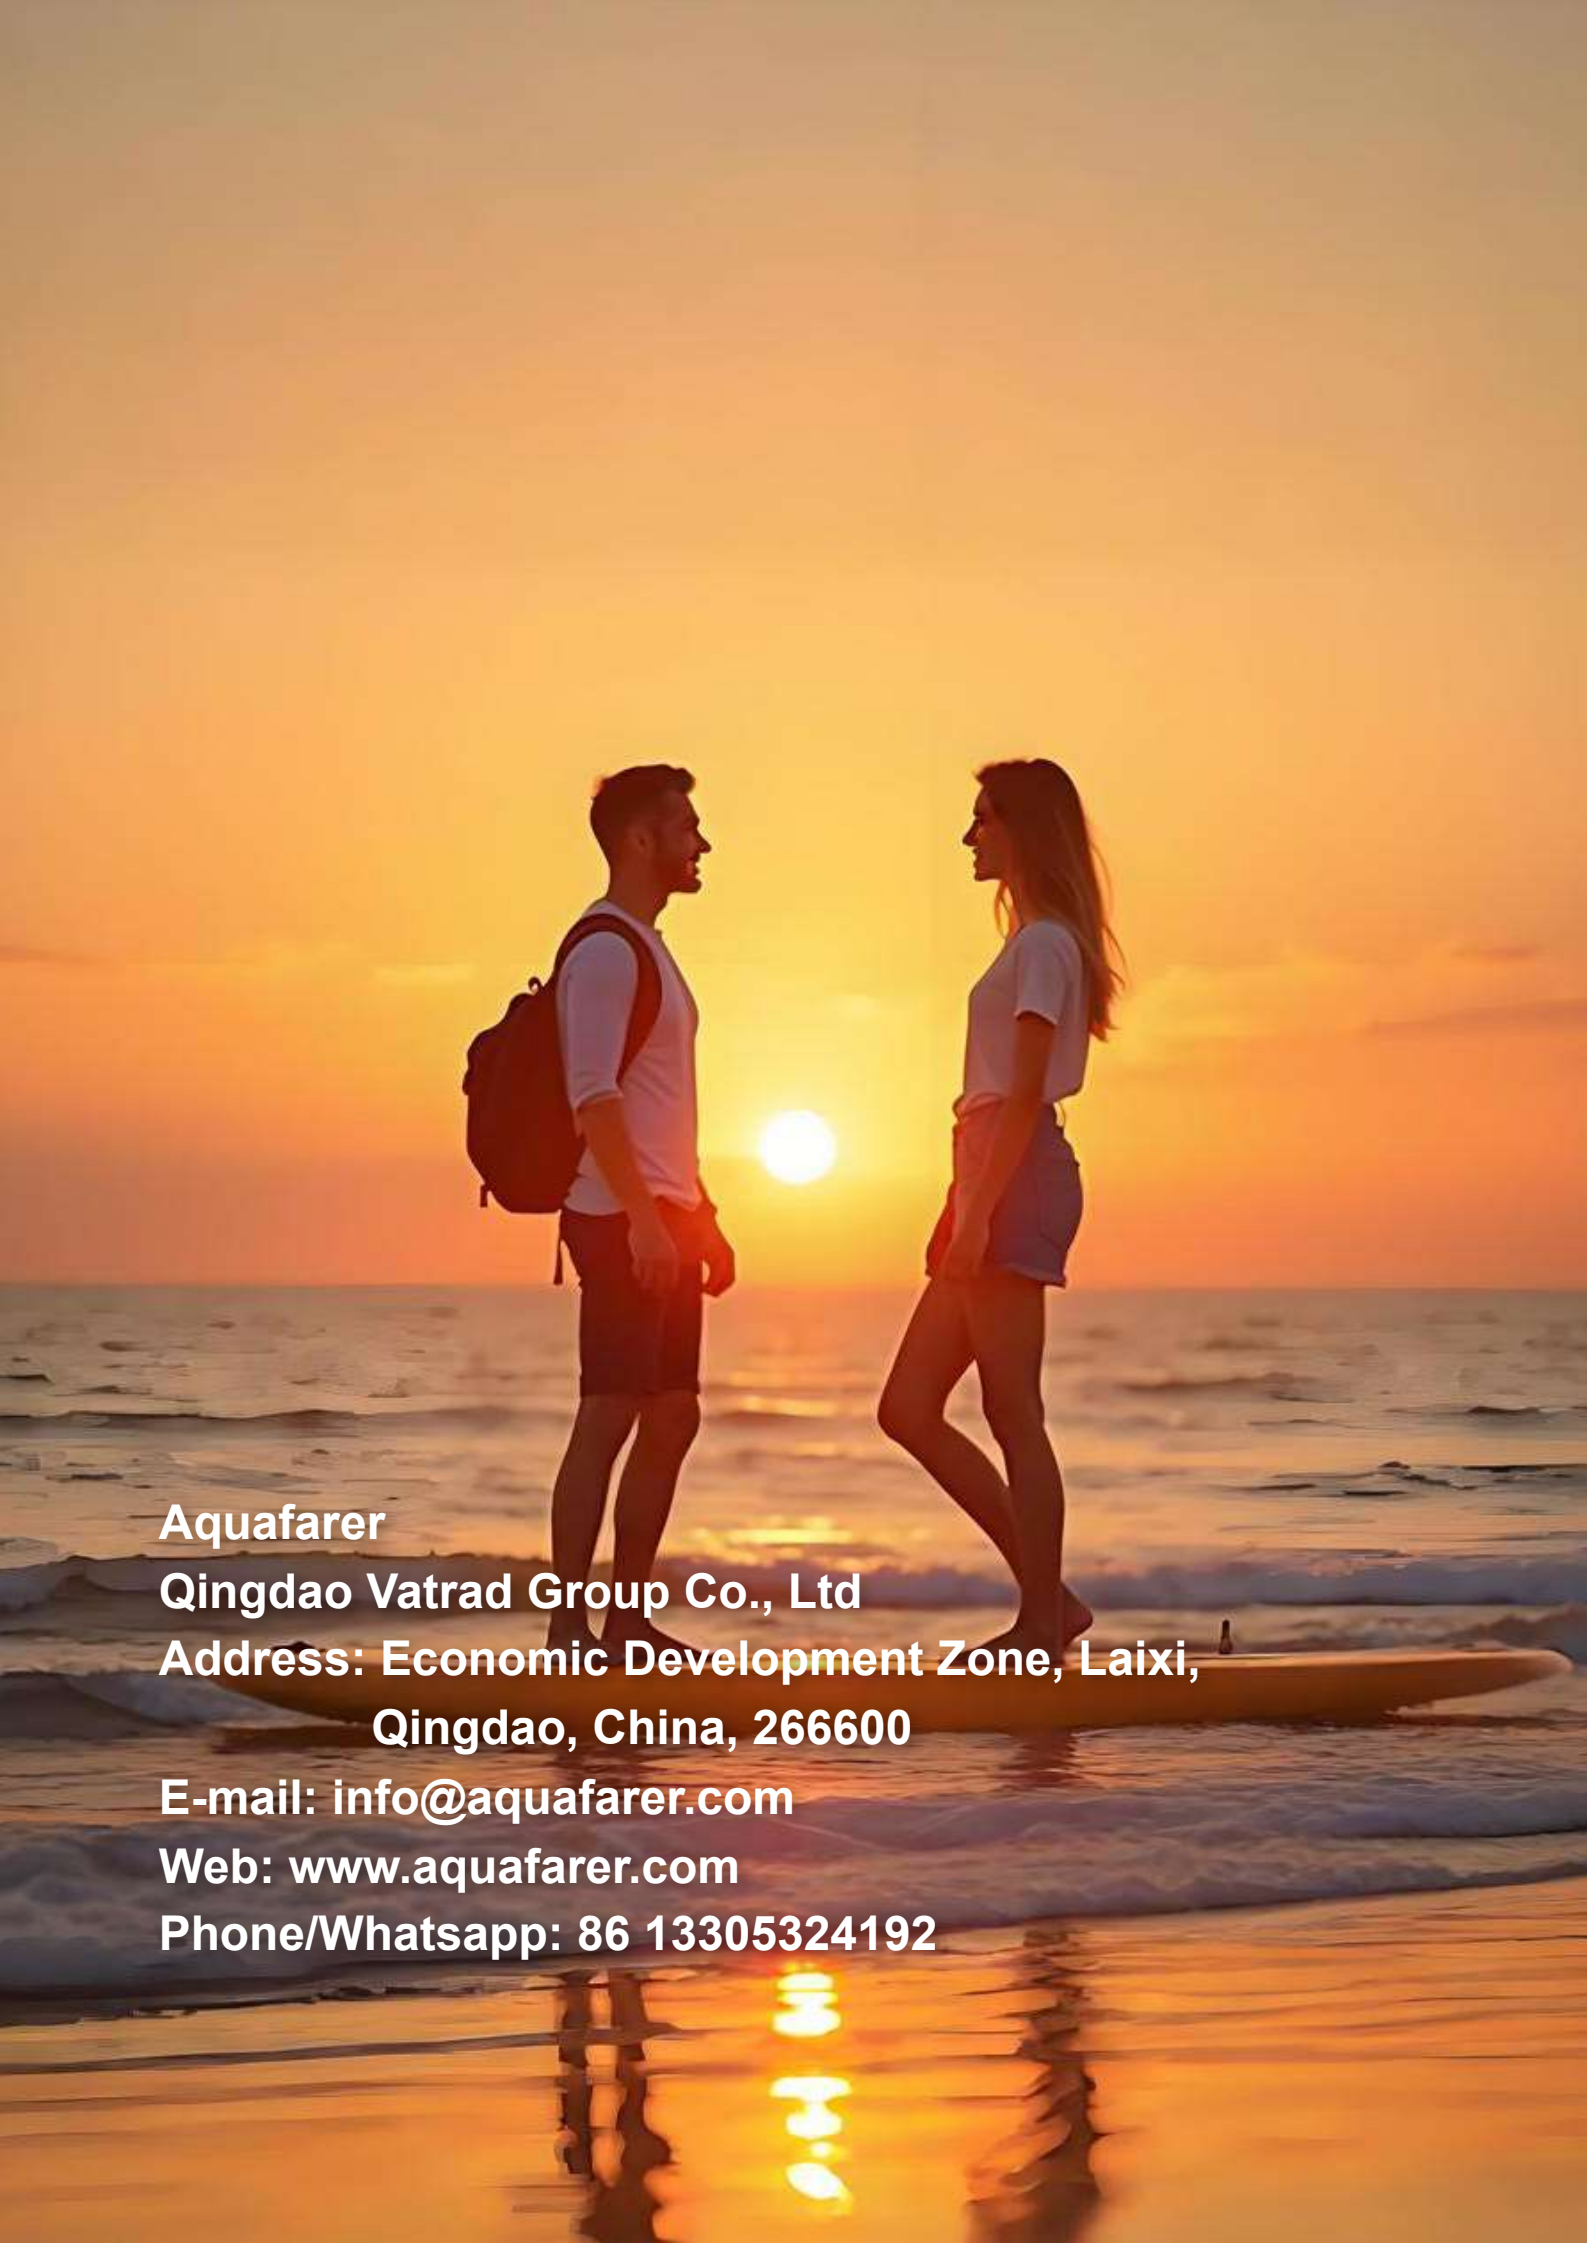

No matter where your journey takes you, Aquafarer boards are built using premium drop-stitch technology, giving you the stiffness of a hardboard with the convenient portability of an inflatable.

***Which series matches your
next water adventure?***

A romantic couple stands on a long surfboard floating on the ocean's surface. They are silhouetted against a brilliant sunset, with the sun positioned directly between them, creating a glowing halo effect. The man on the left wears a white t-shirt, dark shorts, and a backpack, while the woman on the right wears a white t-shirt and dark shorts. The ocean waves are visible around the surfboard, and the entire scene is reflected in the wet sand of the beach in the foreground.
